CONSTRUCTION NOTICE

Poplar Avenue Watermain Replacement & Storm Sewer Upgrade

Commencing June, 2017

Hazelwood Construction Services Inc, on behalf of the Town of Qualicum Beach, will be undertaking a water main replacement and storm sewer upgrade on Poplar Avenue from Bay Street to Yew Street and part way up the hill towards Alder Street. The work is being carried out to replace the outdated, corroding and seismically substandard water pipe, and to install a proper storm sewer to collect surface runoff, complete with French drains to intercept groundwater that contributes to steep bank instability. The scope of the work for this project includes:

- Replacing 400 metres of outdated and undersized cast iron water main with larger PVC water main;
- Replacing current shallow and piecemeal storm water pipes and swales with a proper storm sewer and ground water interception system;
- Installing an additional fire hydrant and replacing an existing outdated slide gate fire hydrant.

Although Hazelwood Construction Services will strive to maintain all possible courtesy for residents, certain disruptions will be unavoidable, especially as Poplar Avenue is an under-width right-of-way with substandard road width and parking provisions. Properties along Poplar Avenue can expect to experience the following:

- Placement of construction materials along the right-of-way;
- Excavation equipment, construction activity with associated noise and dust;
- Disruption to traffic flow and limited on-street parking;
- Periodic interruptions to full access and possible water shut-offs.

You may experience delays and inconvenience during this time, and in this regard we ask for your cooperation and patience. We also request that when driving or walking through and around the construction area that you follow and obey construction traffic signage for your safety and the safety of the workers.

More information will be provided in the upcoming weeks as the contractor's detailed construction schedule and traffic control plan become available. Please visit www.qualicumbeach.com or our Facebook page facebook.com/qualicumbeach
